

My name is Tyler,
and in nine years I'll be an alcoholic.

I'll start drinking in middle school, just at parties.
But my parents won't start talking to me about it until
high school. And by then, I'll already be in some trouble.
The thing is, my parents won't even see it coming.

START TALKING BEFORE THEY START DRINKING

Kids who drink before age 15 are 5 times more likely to have alcohol problems when they're adults.
